Live Broadcast! VIRTUAL CLAY

Annabeth Rosen

You Can Only Go to a New Place Once

Join fellow GAC students for a 92nd Street Y live broadcast of their program VIRTUAL CLAY with ceramic artist Annabeth Rosen.

**WEDNESDAY, FEBRUARY 20
AT 7:00 PM**

On The Big Screen in Studio 5

"I entered the art world somewhere in the early 1980s in NY. At the time ornament was considered trivial, and the language of minimalism prevailed. It was the height of abstraction, along with the abject, and anti-beauty. There was punk and no wave cinema. Inspired by the atmosphere as an artist working with clay, I learned about withholding and discipline, equal to and on balance with the impulse to yield to the flagrant and the impulsive. For ever since I can remember I've been seduced by ceramics, its immediacy, its immutability."

Virtual Clay is a series real-time online classes that gather artists, designers and art historians to speak about important topics in ceramics.

WINTER CLASSES

Read full descriptions online. Classes are open to all levels unless otherwise noted. Adult classes open to ages 13+.

Beading

FREE-FORM BEADED BRACELET [workshop]

Marsha Davis

**Saturday, February 16
10:00AM - 4:00PM**

Explore the creative potential of combining several seed bead stitches while designing a personal free-form bracelet. Each stitch used will be reviewed through demonstrations and then students will be shown various combinations to play with using an assortment of beads. Closures will be demonstrated and proper measuring for a good fit will be covered so that students will have all the necessary information to complete their bracelets on their own. Handouts provided, and an assortment of supplies will be available to supplement those on the supply list.

COLOR MAGIC

Charlice Culvert

8 Mondays beginning January 14
4:30PM - 6:00PM

Color theory can be a pretty advanced concept used by artists and graphic designers, but it can also be broken down into simple terms that even the youngest child can easily understand. Children who are four or five usually know their primary colors; red, yellow and blue. The magic begins when they explore the addition of white and black to create tints and shades. They then move on to create secondary colors through exploration and discovery. Finally, they will explore the mixing of colors to create blacks and browns. It is magic. Please bring a smock.
